# DURABILITY IN EVERY DETAIL

*Built to perform and designed to last, Klauer K-Rib Roofing and Siding panels offer the strength, style and versatility today's builders demand. The panels are manufactured from high-quality, true-gauge steel and finished with an advanced siliconized polyester coating, providing long-term durability. And they're backed by a 40-year warranty that offers extra peace of mind.*

Available in a broad range of colors and styles, K-Rib panels suit everything from agricultural buildings to residential and commercial projects. With nationwide distribution and custom-fit Job Packs—including trim and accessories—Klauer K-Rib panels make it easy to get the right look and the perfect fit.

COLOR MEETS  
QUALITY

Our siliconized polyester paint system delivers outstanding color and gloss retention, superior chalk resistance and ENERGY STAR performance. To suit any structure or setting, we offer a wide variety of colors across our full spectrum of high-quality products.

PROFILES THAT  
PERFORM

Klauer’s K-Rib panel lineup is designed to meet a wide range of performance and aesthetic needs, whether you’re building new or updating the old. From bold, modern lines to timeless, corrugated curves, our seven distinctive profiles offer flexible solutions for roofing, siding and interior applications. On the following pages, you’ll find detailed specs for each profile. For starters, here’s a quick look at the forms that define the K-Rib family.

- › Frontier
- › Suburban
- › Heartland
- › R-Panel
- › PBR-Panel
- › 1-1/4" Corrugated
- › 2-1/2" Corrugated

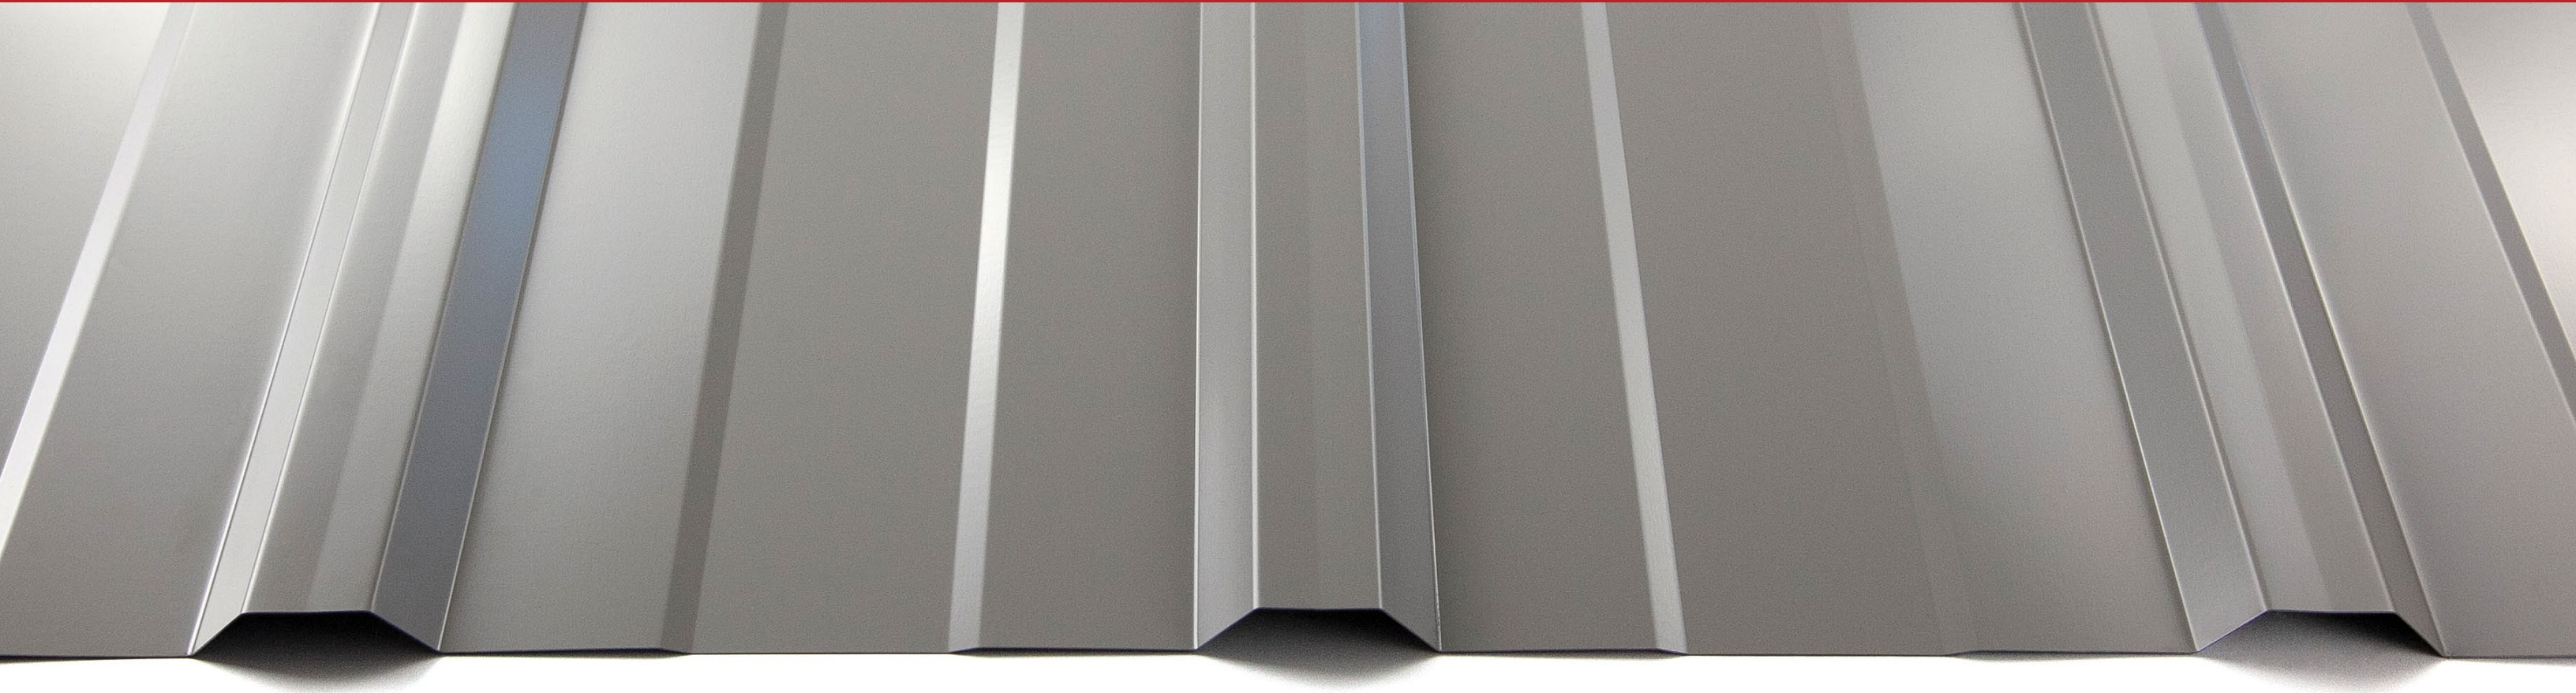

DRIPSTOP CONDENSATION CONTROL

When climate conditions cause condensation to occur, DripStop absorbs and holds moisture in specifically designed pockets in the membrane. When climate conditions return to above dew point, the moisture is released back into the air in the form of humidity. Combining Klauer K-Rib Suburban Panel and DripStop creates the ultimate panel for all applications.

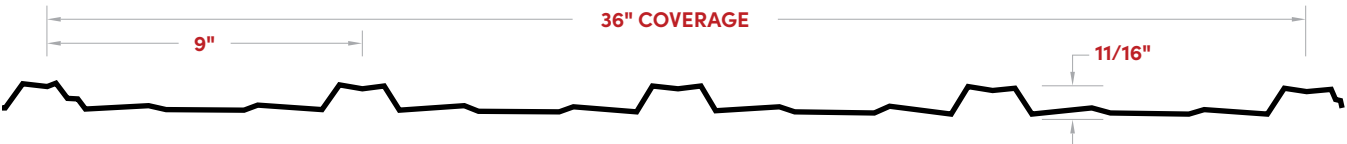

|                  |                                                                                                                                                                                     |
|------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| FIGHTS CORROSION | Tests have proven it adds another layer of protection specifically from the corrosive elements in livestock confinement.                                                            |
| DURABLE          | Resistant to aging. Will not deteriorate, tear or rip. Very difficult to slice through. 20-year adhesion warranty.                                                                  |
| SAVES MONEY      | No additional costs for installing insulation. DripStop is applied at the same time the panel is formed.                                                                            |
| SAVES TIME       | Completely cuts out one step of the building process and up to half the time on the roof. K-Rib Suburban Panel with DripStop arrives at the jobsite already installed on the panel. |
| REDUCES NOISE    | Improves the effectiveness of acoustical insulation.                                                                                                                                |
| UL APPROVED      | UL 723 approved for flame resistance.                                                                                                                                               |

LIMITED 40-YEAR WARRANTY

Klauer Painted Galvanized K-Rib metal roofing panels, metal building trim, roof edge, flashing, rain-carrying products and aluminum siding accessories with a color-coated finish when properly installed for the product’s intended use will resist normal weathering conditions for a period of 40 years after installation, or 40 years and six months after date of shipment (whichever comes first). **This warranty is subject to the following terms and conditions:**

The sole and exclusive remedy for any claims arising from a defective color-coated finish on said products shall be limited to refinishing or replacing the defective products, or at the election of Klauer Manufacturing Company, a refund of the purchase price on a depreciated basis. KLAUER MANUFACTURING COMPANY SHALL NOT BE LIABLE IN CONTRACT, IN TORT, UNDER ANY WARRANTY, IN NEGLIGENCE OR OTHERWISE FOR ANY LOSSES, DAMAGES OR EXPENSES, WHETHER DIRECT, INDIRECT, INCIDENTAL OR CONSEQUENTIAL, CAUSED BY OR RESULTING FROM THE USE OF ANY PRODUCT OR FOR ANY OTHER INCIDENTAL OR CONSEQUENTIAL DAMAGES. THE PRICE STATED FOR THE PRODUCT IS A CONSIDERATION IN LIMITING KLAUER MANUFACTURING COMPANY’S LIABILITY. The parties agree that the exclusion of consequential damages shall remain in full force and effect even if the remedies for breach of warranty fail of their essential purpose. Some states do not allow the exclusion or limitation of incidental or consequential damages, so this limitation or exclusion may not apply to a particular consumer.

The express warranty stated herein is the exclusive warranty applicable to the product. ANY IMPLIED WARRANTIES, INCLUDING ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE ARE EXPRESSLY EXCLUDED. Some states do not allow the exclusion or limitation of implied warranties, so this limitation or exclusion may not apply to a particular consumer.

Claims under this warranty must be made in writing to Klauer Manufacturing Company within 40 days after discovery of the defect. Klauer Manufacturing Company shall have an additional 60 days to inspect material subject to a claim before any further action is taken. No action shall be brought for any breach of this contract more than one year after the accrual of

the cause of action. Claims are for said product(s) only. Labor charges or any other installation fees are not a part of this warranty, and said charges will not be honored.

Abnormal atmospheric conditions to which this warranty does not apply include, but are not limited to, hail, exposure to salt, corrosive or harmful chemicals in the air or atmosphere or other abnormal atmospheric conditions of a similar or dissimilar nature.

This warranty shall not be applicable to damage or defects caused by acts of God, falling objects, external forces, explosions, fire, riots, civil commotion, acts of war, excessive radiation, excessive salt atmospheres, chemicals and foreign substances in the air or atmosphere.

Defects or damage to Klauer products with a color-coated finish caused by handling, shipping, storage, installation, moisture or other contaminants detrimental to the product prior to installation and storage or installation which allows contact with animals and/or animal waste are not covered by this warranty. Further, this warranty shall not extend to minor hairline cracking in the color-coated finish as well as non-uniform weathering or wear under non-uniform weathering or wear conditions.

This warranty is extended to Buyer as the original purchaser from Seller and is not transferable and non-assignable even if Seller’s products are sold or otherwise transferred. No rights against Seller shall be created by transfer or assignment, nor shall any rights against Seller survive any transfer or assignment. No buyer may imply nor permit its customers, distributors, applicators or contractors to claim extension of warranty to any party other than original purchaser.

PRICING

All prices are subject to change without notice. Prices effective at time of shipment will apply.

CLAIMS

All claims for damage or shortage must be made **within 48 hours** from receipt of shipment and supported by transportation company freight bill with such endorsement made and signed by carrier. Our responsibility ceases upon receiving a receipted bill of lading for merchandise delivered in good condition to the transportation company or to the buyer. Examine all shipments carefully upon receipt and before signing the bill of lading or freight bill signed by carrier. Concealed loss of damage should be reported immediately to the carrier. Failure to do this deprives consignee of claim rights. All claims, including overcharge, should be filed by consignee, although we will assist to the best of our ability if the proper documents are submitted to us.

Products found to be defective in material or manufacturing will be replaced at our expense only after inspection. No labor or other expense claims will be honored.

Orders not filled correctly must be reported at once and corrections will be made at our expense.

RETURNS

Returned shipments will not be accepted unless written permission has been given by the company. Material returned for credit is subject to a handling charge of **20%**, less all freight charges. No credit will be allowed on returned material not in first-class condition. No return will be allowed on special manufactured products. Date of original purchase and invoice number must be supplied on all returned material.

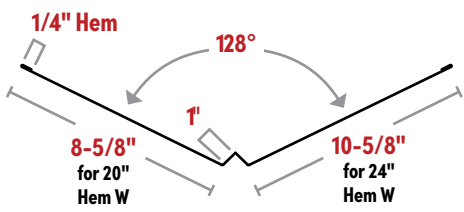

STORING PRODUCTS

If moisture is permitted on stored products, white rust can quickly develop. White rust will attack the surface. To prevent that from happening, observe the following:

- 1. Store materials inside.
- 2. Make provisions for adequate airflow in storage area.
- 3. During periods of extreme temperature change, provide heat to prevent concealed condensation.
- 4. Storage beyond 12 months is not recommended and may result in damage to painted material.
- 5. Forming of painted material in temperatures of less than 60° may produce unsatisfactory results.
- 6. Damage to the painted surface may result if formed sheets are stored at the jobsite and exposed to excessive moisture.
- 7. No claims will be honored for material that has been exposed to the elements during storage.

GUTTER APRON

A technical diagram of a gutter apron. It shows a horizontal section with a width dimension of 2-13/16". This section is connected to a vertical section by a 108-degree angle, indicated by a curved arrow. The vertical section has a height dimension of 1-13/16". At the bottom of the vertical section, there is a small rectangular detail with a depth dimension of 3/8".
